my ships

aircraft carriers

battleship

cruisers

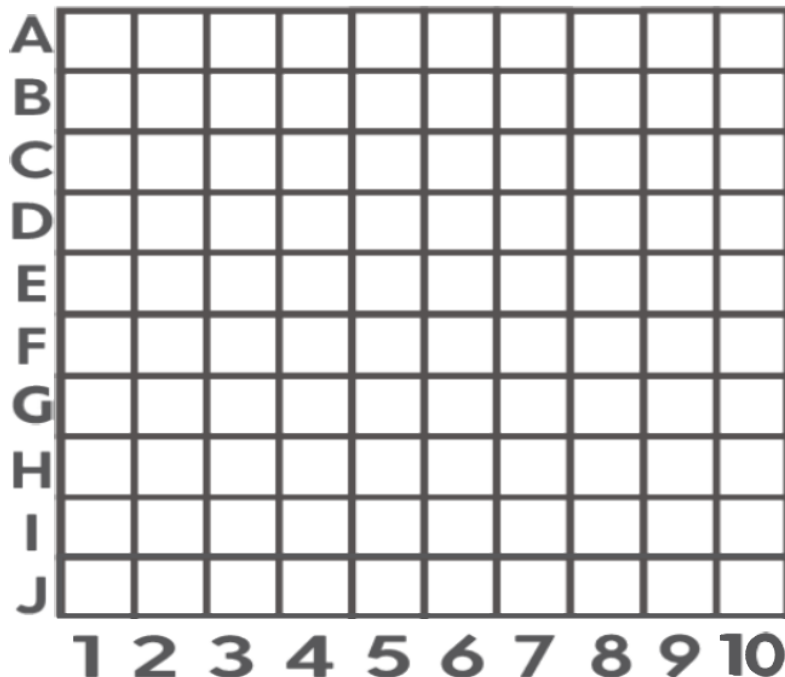

submarines

Use these symbols to position your 5 ships on the 'my ships' grid. Don't let your enemy see your ships.

Each player takes turns calling out a coordinate on the grid- e.g. D4. The other player will tell you whether or not you hit one of their ships. Mark your guess as 'hit' (X) or 'miss' (dot) on the bottom 'enemy's ships' grid.

enemy's ships

Keep a track of your opponents guesses on the top 'my ships' grid. Once a player hits all of the squares for a single ship, that ship has been sunk.

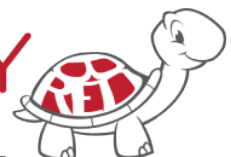

When there is a sunk ship, let the other player know which ship was sunk. The first player to sink all of their opponents ships is the winner.

Print more copies of this page for more game boards, or print on white cardstock and laminate for repeated use with a dry-erase marker.
